1 Introduction

I can create online books for you to use in your class, work or anywhere you wish. Only thing you need to do is to provide the content!

I strongly suggest you to visit the two books I have written before. They can be found in Example Books section.

1.1 Basic Properties

- HTML files to freely and easily host the website on GitHub or your preferred service
- PDF and EPUB download options
- Modifying text size, text font and background theme in real time
- Search button that can trace the whole document
- Collapsible table of contents
- Images in anywhere you want

1.2 Advanced Properties

- Addition of front page and logo
- Addition of mathematical equations with LaTeX

1.3 More Advanced Properties

- Addition of custom css styling
- Creation of non-English books
- Analyzing your data on R, providing insights and stylish plotting

1.4 Example Books

Both of these books were written in Turkish but are nice examples. (Custom styles were not wanted.)

- My First Book
- My Second Book
